A Note from the Editors

Last year we revised the format of Compiled School Laws so that single pages may be removed and replaced. By using this format, we only have to reprint and replace those pages on which content was changed by the year's legislation. Enclosed with this letter are the pages revised to include the 1976 legislative session and to correct past errors in content.

All revised pages are marked with 1976 in the bottom corner.

We have chosen to update the main index and not the subject index at the first of each chapter uhless that page was being reprinted anyway.

The paragraph at the top of page 110 should be marked out as it now appears at the bottom of revised page 109

Also note that on pages 116—117 AS 14 40.917 appears twice. This is not an editing error there are presently two statutes with the same number

Sec. 14.40,901. Purpose. intent. (a) The legislature finds and declares that is has become essential for Alaska to provide for a more efficient use of financial resources, both federal and state, in providing postsecondaty educational services to its citizens. Thus, the state should create a more closely articulated system of planning for postsecondary education, with special reference to occupational education and the unique contribution made by the community colleges. The objective of secs. 901-915 of this chapter is the coordinated, comprehensive planning for postsecondary education in Alaska, encompassing public, private and proprietary postsecondary educational institutions and agencies in the state, in order to lessen the disparate planning efforts of the several state agencies and others now planning one or more elements of postsecondary education. At the same time, the Education Amendments of 1972 (PL 92-318) affords the state the opportunity to draw together programs widely scattered outside the statewide university system but which are related to postsecondary, and especially higher, education that would be more effectively administered by a more visible single agency and thus more clearly and directly accountable to the legislature and to the people of Alaska.

- (b) The legislature affirms that the legal authority for the operation and management of the statewide university system remains with the Board of Regents of the University of Alaska and the legal authority for the operation and management of other postsecondary educational programs remains with the governing boards of the other private nonprofit and proprietary institutions in the state. The commissioner of education may do all things necessary to cooperate with the United States government to participate under the Act and any Act amending or supplementing it, subject to prior concurrence of the governor. (Sec. 1 ch 27 SLA 1959)

Sec. 14.50.020. Definition of public schools for purposes of Statehood Act. Public schools, for the purpose of Public Law 85-508, 85th Congress, Second Session, includes public elementary schools, public high schools, the University of Alaska and other public educational institutions which may be established. Nothing in this section includes schools for Alaska aborigines under the control of the federal government and which are administered and supervised through the Department of the Interior or the United States Department of Health, Education, and Welfare (Sec. 1 ch 88 SLA 1959)

(Sec. 1 ch 78 SLA 1961)

Sec. 14.50.040. Expenditure of state and federal funds for teachers' salaries. If the United States Congress enacts legislation, when the state legislature is not in session, making money available to the state for teachers' salaries, the governor or the board as the federal law may require may accept and use part or a of the federal money made available to the state to increase teachers' salaries according to a minimum salary schedule to be arrived at by the board. Short title 100. Nutrition education

Sec. 14.52.010. Findings. (a) The legislature finds and declares that

- (1) the proper nutrition of the state's children is a matter of highest priority;
- (2) there is a demonstrated relationship between the intake of food and good nutrition and the capacity of children to develop and learn;
- (3) the teaching of the principles of good nutrition in schools has been seriously inadequate, as evidenced by the existence of poor or less than adequate diets at all levels of family income;
- of child for a free or reduced price meal is often degrading and injurious both to the child and his parents; and
- (5) the national school lunch and related child nutrition programs, while making significant contributions in the field of applied that rition research, are not, as presently constituted, capable of achieving the goal of good nutrition for all children.
- (b) The assurance of proper nutrition for our children is a public concern. The legislature urges that, when possible, assistance be provided from all available state and local sources to children in nonprofit private schools and in nonpublic, nonprofit service institutions, as well as to children in the state's public schools, so that they may receive the full benefits of the programs authorized under this chapter. Nevertheless, in situations where this assistance is not forthcoming in adequate amounts the achools and institutions may require of parents a registration fee to help finance the operation of food service programs. (Sec. 1 ch 187 SLA 1972)
- Sec. 14.52.020. Policy; legislative intent. (a) It is the policy of the state to assure adequate nutrition offerings for the state's children, to enquirage the tending of the principles of good nutrition as an integral part of the total educational process; and to strengthen state and local administration of food service programs for children. It is also the policy of the state that food service programs conducted under this chapter be available to all children on the same basis without singling out or identifying certain children as different from their classmates.
- (b) It is the intent of the legislature that insofar as the food service and nutrition education programs of city or borough school districts, or of the state-operated schools are affected by this chapter, the directives of this legislation are guidelines; the policies of this chapter are permissive and not mandatory.

- (c) It is the intent of the legislature in enacting this chapter to implement the federal Child Nutrition Act of 1971 and authorize the state's participation in this program. (Sec. 1 ch 187 SLA 1972)
- Sec. 14.52.030. Food service program for children established. (a). The commissioner shall formulate and administer cooperatively with appropriate federal, state and local agencies a universal food service and nutrition education program for children in the schools of the state and in service institutions conducting programs for the benefit of all children. To the fullest extent practicable, the commissioner shall utilize the available services and expertise of other related federal, state and local departments and agencies, school districts and private organizations concerned with nutrition and nutrition education in the formulation of program requirements and regulations. The program shall be designed to provide each child an equal opportunity to participate on the same basis as all other children with no discrimination as to time or place of serving or types and amounts of foods offered.
- (b) On recommendation of the advisory commission, the commissioner shall promulgate regulations to carry out the purposes of this chapter, and in so doing, shall comply with the Administrative Procedure Act (AS 44.62) and applicable federal statutes and regulations. (Sec. 1 ch 187.SIA 1972)
- Sec. 14.52.040. Federal aid; state matching. (a) The legislature assents to federal aid under the Child Nutrition Act of 1971 on behalf of the state. The commissioner shall cooperate with the federal government and do all things necessary to continue state eligibility under that Act or any Act amending or supplementing it, subject to prior concurrence of the governor.
- (b) If the United States Congress enacts legislation making federal money available to the states for a universal food service and nutrition education program for children under the Child Nutrition Act of 1971, it is the desire of the legislature that the governor or the commissioner of education, as federal law may require, have sufficient flexibility in the use of money appropriated to the Department of Education to meet all reasonable federal requirements for obtaining the full amount of federal money which may be obtained by the state under this federal aid program. To the extent applicable, the provisions of AS 14.50 are incorporated by reference in this chapter.
- (c) For the first and second fiscal years of operations under this chapter, expenditures from funds appropriated to the department under this chapter, other than for the purchase or acquisition of land or for the cost of construction or alteration of buildings, shall constitute at least 10 per cent of total operating costs of the program. Article 6. Miscellaneous Provisions

Section

345. Bonded indebtedness for school constructions

350 Bond quarantee fund

Sec. 29.58,345. Bonded indebtedness for school construction.

A home rule city levying property taxes for schools, upon furnishing proof satisfactory to the Department of Education and the Department of Community and Regional Affairs of the need for school facilities which, if provided, will require the city to exceed limits on authorizing or issuing bonds which may be established by charter, may exceed the limits to the extent necessary to pay costs of school construction. In this section "costs of school construction" means costs as defined in AS 43.18.100(g)(2). (Sec 1 ch 137 SLA 1974)

Sec. 29.58.350. Bond guarantee fund.

- (a) To guarantee payment by the state of the principal and interest of bonds issued under the enabling authority of sec. 340 of this chapter, there is in the Department of Community and Regional Affairs a special fund called the local school bond guarantee fund in which there shall be deposited all money appropriated by the legislature for the purpose of the fund and other money which may be made available for the purpose of the fund from any other source. Money in the fund shall be held and applied soley to further guarantee and provide an additional pledge of payment of all bonds issued under the provisions of sec. 340 of this chapter. Money shall not be withdrawn from the fund if a withdrawal would reduce the amount in the fund to an amount equal to less than the "maximum debt service reserve" (as defined in this section), except for payment of interest then due and payable on bonds and the principal of bonds then maturing and payable and for the retirement of bonds in accordance with the terms of a contract between the municipality and its bondholders and for the payments on account of which interest or principal or retirement of bonds other money is not then available in accordance with the terms of the contract. In this section "maximum debt service reserve" means, as of any date of computation, the largest amount of imoney required by the terms of all contracts between municipalities and their bondholders as to bonds issued under sec 340 of this chapter to be caised in any succeeding calendar year for the payment of interest on and maturing principal of outstanding bonds and payments required by the terms of the contracts to sinking funds established for the payment or redemption of the bonds, all calculated on the assumption that bonds will cease to be outstanding after the date of the computation by reason of the payment of bonds at their respective maturities and the payments of the required money to sinking funds and the application of the money in accordance with the terms of the contracts to the tetirement of bonds
- (b) Money in the guarantee fund at any time in excess of the maximum debt service reserve, whether by reason of investment or otherwise, may be withdrawn by the department and transferred to the general fund.
- (c) Money at any time in the guarantee fund may be invested in any direct obligation of, or obligations as to which principal and interest is guaranteed by, the United States, the state or a political subdivision.
- (d) For purposes of valuation, investments in the guarantee fund shall be valued at the lowest of the par value, cost to the authority, or market value of the investments. Valuation on any particular date shall include the amount of interest then earned or accrued to that date on any money or investments in the fund.
- (e) Other provisions of this section notwithstanding, no bonds may be issued carrying the guarantee provided in this section unless there is in the guarantee fund the maximum debt service reserve for all bonds then issued and outstanding and the bonds about to be issued, but nothing prevents or precludes a municipality from satisfying the foregoing requirement by depositing so much of the proceeds of the bonds about to be issued, upon their issuance, as is needed to achieve the maximum debt service reserve.
- (f) In order to assure the maintanance of the maximum debt service reserve in the guarantee fund, there is authorized to be appropriated annually and paid to the authority for deposit in the fund, the sum, if any, that is certified by the commissioner of community and regional affairs to the governor as necessary to restore the fund to an amount equal to the maximum debt service reserve. The chairman shall annually, before December 2, deliver to the governor his certificate stating the sum, if any, required to restore the fund to that amount, and the sum so certified is authorized to be appropriated and paid to the fund during the then current state fiscal year
- (g) Nothing in this section may be considered to cause bonds, payment of which is guaranteed from money in the fund established under this section, to be in any way a debt or liability of the state or any political subdivision of the state other than the political subdivision issuing the bonds, and the bonds, whether or not payable from the maximum debt service reserve created and established under this section, shall not create or constitute an indebtedness, liability or obligation of the state or be or constitute a pledge of the faith and credit of the state. (Sec 1 ch 137 SLA 1974)

Sec. 29.68.020. Annexation of military reservations.

A military reservation may be annexed to a city or borough in the same manner as prescribed for any other territory under sec. 10 of this chapter. If a city within an organized borough annexes a military reservation under this section, the territory encompassing the military reservation automatically is annexed to the borough of which the city is a part. Title 35. Public Buildings, Works, and Improvements.

Sec. 35.10.015. - Architectural barrier regulations.

The Department of Public Works is responsible for preparing and promulgating regulations governing the construction of public buildings and facilities by or for the state, including the University of Alaska, and its political subdivisions to insure that the public buildings and facilities are accessible to; and usable by, the physically handicapped. The regulations of the department shall conform as far as it is feasible to the publication entitled "American Standard Specifications for Making Buildings and Facilities Accessible to and Usable by the Physically Handicapped" or any amendments to this publication as approved by the American Standards Association, Incorporated, under the sponsorship of the National Society for Crippfed Children and Adults and the President's Committee on Employment of the Physically Handicapped (Sec 1 ch 119 SLA 1966, am Sec 1 ch 48 SLA 1972)

Sec. 35.15.080. Local control of state public works projects.

- (a) A municipality or, if the public work is an educational facility, a regional educational attendance area established under AS 14.08 may, by resolution of its governing body, request the assumption of the department's responsibilities relating to the planning and construction of a public works project of the state which is to be located within the boundaries or operating area of the municipality or regional educational attendance area and which would otherwise be constructed in the manner provided in sec. 10 of this chapter. After receipt of the request, the department may provide by agreement for assumption by the municipality or regional educational attendance area of the department's responsibilities relating to the planning, design, and construction of the public works project, unless the commissioner determines that assumption of responsibilities by the municipality or area is not practicable or not in the best interests of the state. The parties may by mutual agreement provide for joint or cooperative assumption of responsibilities by the department and the municipality or regional educational attendance area
- (b) If the commissioner of public works determines that assumption of responsibilities by a municipality or regional educational attendance area under this section is not practicable or not in the best interests of the state, he shall notify the governing body of the municipality or area of his finding and specify reasons for it. If the governing body requests reconsideration of the decision, he shall hold a hearing in the municipality years 30 days following mailing of the request. Following the hearing he may affirm, modify or the section and shall specify in writing the reasons.
- (c) If two or more municipalities or regional educational attendance areas request assumption of responsibilities for a project and meet the standard of practicability set out in this section, the commissioner shall determine which municipality or regional educational attendance area is best able to direct planning, design, and construction of the project and enter into an agreement with that subdivision or area, or provide for joint or cooperative administration, as the parties may agree or the commissioner may determine. Decisions of the commissioner under this subsection are final.
- (d) Provisions of this title governing planning, design, and construction of public works by the department, and regulations adopted under the provisions, govern the administration of projects assumed by a municipality or regional educational attendance area under this section. For that purpose the provisions supersede any conflicting provisions of ordinance or charter of a municipality.
- (e) An organized borough may plan and construct public works under this section and make an agreement with the department for that purpose irrespective of restrictions of other provisions of law on the acquisition and exercise of borough powers. Borough exercise of the power conferred under this subsection does not preclude exercise by a city of the borough of the same power within the city.

(f) To carry out the purpose of this section, the commissioner of public works shall adopt regulations relating to the application for and the making and the conditions of agreements and the local assumption of responsibilities under this section. He may require different terms in agreements for different projects to meet local conditions and unique requirements and to assure compliance with the public facilities procurement policies developed by the department under AS 35.10 160 — 35 10 200. If necessary, the commissioner may require as a condition of an agreement approval of the agreement by the federal government.

(am Sec 1 ch 57 SLA 1976)

Sec. 35.15.090. Use of appropriated funds.

Upon execution of an agreement under sec 80 of this chapter, state funds appropriated for a public works project which is the subject of the agreement shall be transferred to a special account in the state treasury. A municipality or regional educational attendance area administering the project under the agreement may draw on the account for costs of the project, under fiscal control of the department. If an agreement provides for joint or cooperative administration of the project, payment of ts-shall be made to the party incurring the costs. (am Sec 1 ch 57 SLA 1976)

Sec. 35.15.100. Responsibility of department.

When a municipality or regional educational attendance area has assumed responsibility for a public works project in accordance with secs. 80-120 of this chapter, the department is relieved of responsibility to the extent it is assumed by the municipality or regional educational attendance area. The department may provide technical assistance on the responsibility assumed if requested to do so by the municipality or area and shall be reasonably compensated for that assistance from the account established under sec 90 of this chapter (am Sec 1 ch 57 SLA 1976)

Sec., 35.15.110. Title to site and completion of project.

- (a) Title acceptable to the department to a suitable project site shall be vested in the state before work is begun on the site.
- (b) Responsibility for maintenance of the project shall be established in the original contract agreement. The department shall participate in the final inspection of the project and approve of the final documents on the project. (am Sec 1 ch 57 SLA 1976)

School lands may be exchanged for (1) state lands, (2) vacant, unappropriated and unreserved public lands and (3) lands owned by a city, borough or other public entity. In the case of unequalvalues, cash may be used to equalize land values.
